

This complaint by the CONSUMER BANKERS ASSOCIATION would only allow them to call me and try to telemarket more services to me that I would not want. Again this is my phone number and if I do not want a phone call from telemarketers then I should have the right to do so. If people wanted a particular service they could easily call their bank and request/question about such services otherwise the only time I would want my bank to call me is if there is a problem with my accounts. So please say no to the CONSUMER BANKERS ASSOCIATION.
